### STATE SALE

OCTOBER 23, 1951  
CHILlicothe, Missouri

# Announcement

The purebred cattle business was never in a stronger position than it is today and no phase of agriculture is on a more sound basis than the breeding of good Shorthorns. The margin of profit being received by the breeder for his product is invariably in proportion to the quality of cattle he is producing, and the amount of satisfaction received from the enterprise is surely in direct proportion. The demand for beef far out-reaches the supply in-so-much that replacement cattle are selling at least 20% above the levels of a year ago. With this raging demand for feeder cattle the ranchers and commercial breeders are paying a premium for quality breeding stock. This demand apparently increases with the quality all along the line which results in the record sales being established. Such a situation has enticed farmers to change their type of farming and switch over to beef production. We have found out that from better care of our pastures we can produce 400 to 500 pounds of beef per acre. This leads to an easier way of farming and one that will conserve our land for future generations when the demand for quality food will be even greater.

This all sums up to the thought: Why not raise the kind of cattle that will do a better job of supplying this demand? The answer is Shorthorns. They excel in their ability to produce more beef in less time and you get more quality for your money invested in Shorthorns than any other breed.

With this situation in mind, the Missouri Shorthorn breeders are determined to make this offering their very best, and they have come through with 73 head from the top production of their respective herds and a few choice importations from Scotland. The 39 bulls range from a few tried sires down to December calves, thus providing a wide selection in whatever aged group your herd bull problem may require. The demand for females the past year has been so keen that many of our breeders were compelled to dig deep into their breeding herds to supply the necessary number for this sale. We offer 16 cows and heifers with calves at foot or close to calving to some of the breed's outstanding sires. This gives the 4-H Club member or beginner an opportunity to select a suitable calf with its mother which will insure that the calf will continue to do well and will give him a quick sound start in the business. The bred heifers are a top lot suitable to go into the best of herds and carry the services of the good herd bulls in the state. We believe the open heifers are good enough to prove the breeding ability and help establish a reputation for your herd bull.

Some of the best Shorthorn Cattle have been produced in Missouri and with an enthusiastic organization of breeders that we now have in the state we are assured that some of the best will continue to come from Missouri. This leaves but one conclusion. Come to Chillicothe the 23rd of October and buy good Shorthorns. You will profit from the efforts of these Cattlemen.

Russell Holz, Sales Manager  
Stephens, Missouri.

# MISSOURI'S Biggest & Best

## General Information

TIME - The show will be held at 9:30 a.m. and the sale at 12:30 p.m.

LOCATION - The sale will be held in the Fraley Sales Pavilion at Chillicothe. Chillicothe is at the Junction of U.S. Highways No. 36 and No. 65. Hotel Strand will be Sale Headquarters. Make your reservation there or at the Leeper Hotel well ahead of time.

TERMS - The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bid off but the management will assist in loading on cars or trucks in compliance with instructions from purchasers.

GUARANTEE - All cattle are sold subject to a sixty day retest for tuberculosis and health certificates will be furnished to enable them to be shipped into any state or territory. All cattle have been blood tested for Bang's disease within 30 days of the date of this sale. Bulls are guaranteed breeders if properly cared for and not allowed to run with the herd. If a bull fails to breed, he may be returned to the seller, if in as good condition as when bought and if, after a test in the seller's herd he still fails to breed he will be replaced or the purchase money will be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other cows and all heifers over sixteen months old at the time of sale are guaranteed to be breeders. Animals returned to sellers because they do not comply with guarantee will be at the buyer's costs of transportation.

A certificate of registry and a signed transfer will be furnished for each lot sold and an application for registry will be furnished for each calf sold at foot and for each unborn calf sold in dam.

Where footnotes appear in this catalog, they were furnished by the consignors or written from information supplied by the consignors.

All animals in this sale have been tested for tuberculosis and Bang's disease to comply with state laws and health charts will be provided.

We will not be responsible for any accidents that may occur, but will make every effort to provide for the safety and comfort of our guests.

The above guarantee and terms shall constitute a contract between consignor and buyer of each lot. Neither the sale manager nor the clerk of the sale assumes any liability, legal or otherwise.

Those wishing to buy at this sale who cannot be present may send their bids to the Sale Manager, Russell Holz, Stephens, Mo., Mervin F. Aegerter of The Shorthorn World, Don Bowman of the Missouri Ruralist; Wally Gladish Drover's Telegram, Kansas City, Missouri, C. K. Tomson, Secretary, American Shorthorn Breeders' Association, U. S. Yards, Chicago, Illinois, Ted Aegerter, Fieldman, American Shorthorn Breeders' Association, Seward, Nebraska, or to the Auctioneer, C. D. Swaffer, Tulsa, Oklahoma.

Late buying orders and instructions can be given to the Sale Manager or to any of the fieldmen present by telephoning them at Telephone Number 620, Chillicothe, Missouri any time on sale day prior to 1:00 p.m.

# Show Classification

Show to be held at 9:00 A. M., Tuesday, October 23.

Carl Retzlaff, Walton, Nebraska - Judge

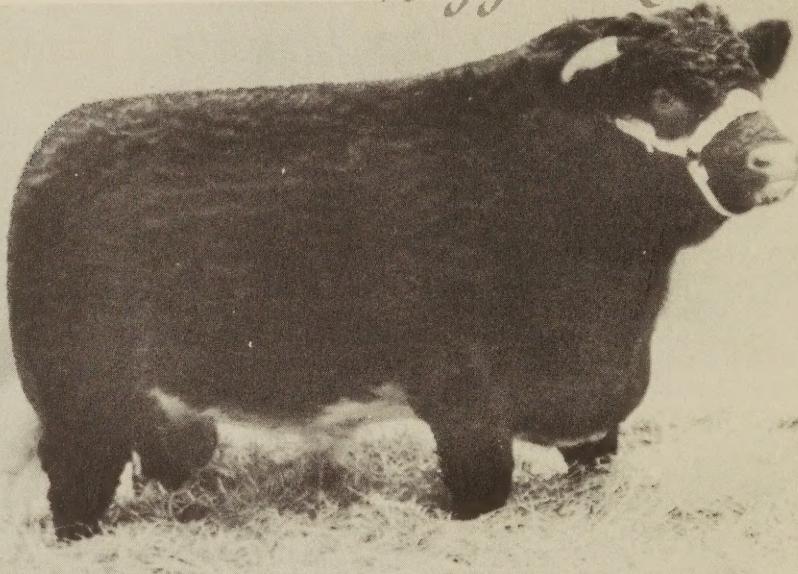

For the purpose of this Show, the sale cattle have been divided into groups according to age and sex. The State of Missouri Department of Agriculture will award ribbons and cash prizes as explained elsewhere in this catalog. The Missouri Shorthorn Breeders' Association offers \$100.00 in cash prizes and a trophy for the best paid (Bull and Female). The Chillicothe Chamber of Commerce is offering silver trophies for the Grand Champion Bull and Grand Champion Female.

## THE IDEAL SHORTHORN BULL

This picture was selected by the directors of the American Shorthorn Breeders' Association to represent the ideal type Shorthorn bull. Follow this type in buying your herd bull. His wide short head and thick short neck indicate his ability to feed well and his potency as a sire. Note his deep, short, thick body set on straight sturdy legs and his long bulging hind quarters. He has the substance of bone necessary to attain that greater weight for age.

**KAIR YEOMAN** - Since we have three young imported bulls on hand now, here's a chance for someone to acquire a top herd bull. His sister topped Grant Campbell's sale last year at Moffat, Canada, and was sold to Kickapoo Farms, Kenosha, Wisconsin for \$2450.00, and his sire was sold for a high price at Perth. We have used this bull on some of our heifers, and he is a sure breeder. Vaccinated for Bangs.

**CHILlicothe, Missouri**

# MISSOURI'S Biggest & Best

## Good Bulls For Greater Progress

Investing in an outstanding purebred shorthorn bull is the best way to progress in the beef cattle business. It is far cheaper to breed deep middles and naturally thick bodies on calves than to feed them on . . . and if a calf has not been given the right heritage no amount of feeding and handling will ever develop it into a top animal.

A good Shorthorn bull will raise the standard of the calves from just average cow herds immediately . . . and owners of choice cow herds cannot afford to invest in a bull that doesn't give all the evidence of having the ability to sire calves equal or superior to their dams.

The bulls offered in this sale are just the type to lead the progress of the breed in the future decade.

### GOLDEN RULE MONARCH 30TH

He is a rugged, good headed calf with a lot of weight for age. He has a lot of the best in Goldfinder breeding and is sired by a son of Killearn Monarch 29th that was in the first prize pair of yearlings at the National Show at Kansas City in 1949 and near the top in the summer yearling class at all the major shows. His dam is a good daughter of Gold Accent and out of a full sister to the 1941 International Reserve Champion Female.

THE IDEAL SHORTHORN FEMALE

This picture was selected by the directors of the American Shorthorn Breeders Association to represent the ideal type Shorthorn female. In making your selections keep this type in mind. Buy females that display femininity and breediness with lots of substance and thickness, coupled with ample quality and the ability to feed her calf.

# MISSOURI'S Biggest & Best

## Missouri State Department of Agriculture Awards

The State of Missouri, Department of Agriculture, will award to all animals in each class that can qualify as blue ribbon, red ribbon, and white ribbon animals, their respective earned ribbons and a cash premium of \$6.00 for Blue, \$4.50 for Red, and \$3.00 for White.

These awards are made possible through an appropriation by the Missouri Legislature to encourage the production, distribution and use of better breeding animals in Missouri.

### BLUE RIBBON Animals are excellent individuals.

Only animals of outstanding quality, unusually good type, symmetry, and conformation, in sufficiently good flesh and adequately fitted to demonstrate fully their qualifications will be placed in this group. These are animals of unusual merit that would in every case be a valuable addition to the top breeding herds of the state.

### RED RIBBON Animals are superior individuals.

Only animals of superior quality, of good type and without any major defect, plainly demonstrating the superiority of their qualifications will be placed in this group. These animals should be sufficiently good to improve any commercial herd and most small breeders' herds.

### WHITE RIBBON Animals are good individuals.

Animals of somewhat less desirable type and with one or more rather objectionable characteristics may be placed in this group. These are animals that would improve commercial herds and would in every case be superior to grade and scrub animals.

Animals which are not superior to high grade stock will be unclassified.

Rollo E. Singleton of the Livestock Division will distribute the awards at the show starting at 9:30 a.m. on Sale Day.

# MISSOURI'S Biggest & Best

## Your Three-way Opportunity

Commercial breeders, who represent a vast majority engaged in the production of beef cattle...the farmer-breeders, who maintain relatively small herds of commercial cattle...and breeders of purebred registered cattle constantly seek herd bulls and foundation females.

Thus the demand for improved breeding stock is three-fold. . . . . and is conclusive assurance of future security for breeders of Shorthorns and Polled Shorthorns of the profit-producing type demanded by ranchers, farmers and breeders alike.

Establish your herd in this sale. . . . . the bulls and females have been carefully selected to provide you with ideal foundation animals.

### *Shorthorn For Greatest Returns*

Concentrated agricultural production with modern legumes and forage crops enables a large herd of Shorthorns to thrive on a relatively small acreage with greater cash returns per acre on less labor. Greatest profits result from the most efficient conversion of grass and roughage into prime beef and an abundance of milk. Breed Shorthorns for greatest returns.
